

obj_1

```
graph LR; obj1[ $obj_1$ ] --- obj2[ $obj_2$ ]
```

The diagram consists of two rectangular boxes. The first box, on the left, contains the text obj_1 . The second box, on the right, contains the text obj_2 . A black line connects the right side of the first box to the left side of the second box. The line starts at the middle of the right edge of the first box, extends horizontally to the right, then turns 90 degrees downward, and finally turns 90 degrees to the left to connect to the middle of the left edge of the second box.
