

A diagram consisting of two squares,  $O_1$  and  $O_2$ . Square  $O_1$  is located in the upper right quadrant, and square  $O_2$  is located in the lower left quadrant. A horizontal line segment connects the bottom-right corner of  $O_2$  to the bottom-left corner of  $O_1$ . Additionally, a vertical line segment extends upwards from the top-right corner of  $O_1$ , and another vertical line segment extends downwards from the bottom-left corner of  $O_2$ . These two vertical lines are connected by a horizontal line segment at the top, forming a rectangular frame that encloses the space between the two squares.

$O_1$

$O_2$
